Twelve new premises are located in Bastrop County, one new premises is in Travis County and one new premises is located in Val Verde County. Two cases of VS have been detected in bovine in Bastrop County.

- One premises is located 2 miles northeast of Del Rio in Val Verde County
- One premises is located 2 miles north of Bastrop in Bastrop County
- One premises is located 3 miles north of Bastrop in Bastrop County
- One premises is located 4 miles north of Bastrop in Bastrop County
- One premises is located 4 miles north of Bastrop in Bastrop County
- One premises is located 1 mile north of Cedar Creek in Bastrop County
- One premises is located 1/4 mile southeast of Bastrop in Bastrop County
- One premises is located 5 miles southeast of Manor in Travis County
- One premises is located 5 miles south of Bastrop in Bastrop County
- One premises is located 8 miles northwest of Bastrop in Bastrop County
- One premises is located 7 miles northwest of Bastrop in Bastrop County
- One premises is located 5.5 miles NW of Bastrop in Bastrop County
- One premises is located 3 miles north of Bastrop in Bastrop County (1 cow)
- One premises is located 1 mile southeast of Cedar Creek in Bastrop County (1 cow)

To date, 35 premises in nine Texas counties have been confirmed with VS. Affected counties include(d): Kinney, Hidalgo, San Patricio, Nueces, Jim Wells, Bastrop, Travis, Guadalupe and Val Verde counties. Six premises have been released from quarantine: 1 in Kinney county, 2 in Nueces county, 2 in San Patricio county and 1 in Hidalgo county.

Case= A premises; a location

The newly identified infected premises are currently under quarantine by the TAHC. Affected horses and cattle will be monitored by regulatory veterinarians while under quarantine. Premises are eligible for quarantine release 21 days after all lesions have healed. *There is no known exposure to other horses or cattle around the state, or at any equine/cattle events.*

History: (In reverse chronological order)
