## Texas Animal Health Commission (TAHC)

# Vesicular Stomatitis (VS) in Texas Update

September 10, 2014

Since the September 3 update, the Texas Animal Health Commission (TAHC) has not received any confirmation of new cases of Vesicular Stomatitis (VS) in Texas. One premises has been released in Travis County, 16 premises have been released in Bastrop County, and all premises in Williamson County have been released.

To date, 58 premises in 12 Texas counties have been confirmed with VS. Currently affected counties include: Bastrop, Falls, Guadalupe, McLennan, and Travis counties. Of the 58 premises, 43 have been released. Seven counties have been released from quarantine: Jim Wells, Kinney, Nueces, San Patricio, Val Verde, Williamson, and Hidalgo counties.

The newly identified infected premises are currently under quarantine by the TAHC. Affected horses will be monitored by regulatory veterinarians while under quarantine. Premises are eligible for quarantine release 21 days after all lesions have healed.
