INTERNAL AUDIT FUNCTION
EXTERNAL QUALITY ASSURANCE REVIEW – October 2013

BACKGROUND

The Institute of Internal Auditors (IIA) International Standards for the Professional Practice of Internal Auditing, U.S. Government Accountability Office (GAO) Government Auditing Standards, and the Texas Internal Audit Act require that internal audit functions obtain external quality assurance reviews to assess compliance with standards and the Act and to appraise the quality of their operations. Government auditing standards require these reviews at least every three years. A periodic external quality assurance review, or peer review, of the internal audit function is an essential part of a comprehensive quality assurance program.

OBJECTIVES, SCOPE, AND METHODOLOGY

The primary objective of the quality assurance review was to evaluate the Texas Animal Health Commission’s compliance with professional standards and the Texas Internal Audit Act. The scope of the review included all internal audit completed during the year ending August 31, 2013.

The work performed during the review included:

- Review of the Texas Internal Auditing Act (Government Code, Chapter 2102).
- Review and evaluation of audit working papers.
- Review of Internal Audit’s policies and procedures, annual risk assessment, annual audit plan, and other relevant documents.
V. INTERNAL AUDIT PLAN FOR FISCAL YEAR 2014

- Region 5 Office (Beeville, Texas) 150
- Travel 135
- Budgeting 125
- Follow-up on prior internal audit recommendations:

Total Hours 460

Our risk assessment was performed through the consideration of various factors, including:

1. Exposure Level
2. Complexity of Unit
3. Materiality of Revenues and Expenditures
4. Results of Last Audit
5. Extent of other Coverage or Oversight
6. Quality of Internal Controls/Adherence to laws
7. Changes in systems and processes
8. Normal Audit Interval

Although all of the above factors were considered in the assessment of risk for each process/system, some of the factors were weighed more heavily and considered to be more critical to the Agency’s internal control structure. The following critical factors were weighted more heavily in our assessment.

- Exposure Level
- Quality of Controls
- Changes in Systems and Processes

VI. External Audit Services Procured in Fiscal Year 2013

There were no External Audit Services for the fiscal year 2013 other than Internal Audit Services.
